

Conduit 90[®]

GRANULAR

Long-Term Soil Surfactant

AQUA-AID

Conduit 90 Granular is an effective long-term soil surfactant designed to last 90 to 120 days in the soil to help manage soil water repellency. **Conduit 90** Granular enhances the infiltration and movement of water in and through the rootzone aiding in the prevention of localized dry spots. When used in accordance with product directions, **Conduit 90** Granular is easy to use, will not harm turf, and can be applied at anytime of the year to avoid the detrimental impact of water repellency stress and localized dry spots. **Conduit 90** Granular is safe to turf when used as recommended.

CONDITIONS OF SALE

WARRANTY AND LIMITATION OF LIABILITY

AQUA-AID, INC. (Seller) warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with the stated directions under normal conditions of use. Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty of FITNESS or of MERCHANTABILITY, and no agent of Seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.

HAZARD STATEMENT(S)

May cause respiratory irritation.

PRECAUTIONARY STATEMENT(S)

Keep out of reach of children. Read label before use. Avoid breathing dust. Use only outdoors or in a well-ventilated area. IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or physician if you feel unwell.

Warning

RECOMMENDED SPREADER SETTINGS*

BRAND / TYPE	SPREADER SETTINGS - lbs/1000 ft ² (kg/ha)
	3.25 lbs. (160 kg)
Scotts (Pro Turf) R8A / rotary	H
Spyker / rotary	3.7
Earthway / all rotary models	10

*To assure accurate applications, calibrate your spreader periodically.

Weight to Volume Equivalents for Conduit 90 Granular Formulation:

3.25 lbs. = 8 fl.oz. of Conduit 90 Liquid
160 kg = 25.5 L of Conduit 90 Liquid

CONTAINS NON-PLANT FOOD INGREDIENT:

Active Ingredient	16%	Alkoxylyated polyols
Inert Ingredient	84%	Porous ceramic carrier

Conduit 90 Granular should be applied early in the season before localized dry spot conditions and formations occur.

DIRECTIONS FOR USE

Greens, Tees, Fairways, Lawns and Sports Turf

Split Application:

Apply **Conduit 90** Granular at 3.25 lbs per 1000 ft² (160 kg/ha). 7 to 10 days later apply a second application of **Conduit 90** Granular at 3.25 lbs per 1000 ft² (160 kg/ha). Irrigation is necessary to release **Conduit 90** from the carrier. Irrigate before next mowing or leave baskets off. Reapply a split application of **Conduit 90** Granular after 90 days if climatic conditions still exist for the formation of water repellency conditions.

Seeding: Apply **Conduit 90** Granular at 3.25 lbs per 1000 ft² (160 kg/ha) two weeks prior to seeding. Irrigation is necessary to release **Conduit 90** from the carrier.

Sodding: After laying sod, apply **Conduit 90** Granular at 3.25 lbs per 1000 ft² (160 kg/ha). Irrigation is necessary to release **Conduit 90** from the carrier. For long-term water management, apply a second application 7 to 10 days after initial application.

AQUA-AID GUARANTEE

Conduit 90 Granular comes with a 100% money back guarantee. If you are not satisfied with Conduit 90 for any reason after trying the product at recommended rates, AQUA-AID, INC. will refund your money in full.
