GENERAL INFORMATION

Worm Power Turf is derived from earthworm castings in a controlled environment setting. **Worm Power Turf** improves soil and soilless mixes. Use **Worm Power Turf** as part of a complete turfgrass and ornamental plant fertility program.

DIRECTIONS FOR USE

Worm Power Turf can be applied to all ornamental plants, trees, turf, lawns, landscape shrubs, and flowers.

Turf Application: Greens, Tees, Fairways, Lawns and Sports Turf

Apply **Worm Power Turf** as a soil spray at 8 ounces per 1000 ft² in 2 gallons of water (25 L/ha in 800 L) at 15 day intervals or 16 ounces per 1000 ft² in 2 gallons of water (50 L/ha in 800 L) at 30 day intervals. For best results, **Worm Power Turf** should be watered in immediately after application and requires season long application programs.

Horticultural Root Zone Application

In Soilless Media: Apply **Worm Power Turf** at 1.75 ounces per gallon (13.5 ml/L) of growing container size every week throughout the growing season.

In Mineral Soil Media: Apply **Worm Power Turf** at 1 ounce per gallon (8 ml/L) of growing container size every week throughout the growing season. If plantings are in the ground, estimate the volume size of the root ball in gallons (liters) and apply accordingly.

Horticultural Foliar-Spray Application

Mix a 1:100 solution of **Worm Power Turf** in water. Apply as a spray to cover the entire leaf canopy until running off.

HAZARD STATEMENT(S)

The product is not classified as hazardous. No known significant effects or critical hazards.

PRECAUTIONARY STATEMENT(S)

Keep out of reach of children. Read label before use. In case of eye contact, flush eyes with water. If swallowed, give water or milk. If eye or skin irritation occurs or you feel unwell, get medical advice/attention.
